

CAMPUS WATCH: Operation Safe Street
January 20,2012

This morning's snow fall, as well as an impatient driver, almost resulted in a serious accident on Centre Street at the entrance to Ware Loop. This incident occurred during the middle of morning drop-off. Please be aware that once you enter Ware Loop, you are committed to following through to the driveway's exit.

With the forecast calling for snow over the weekend, situations like that this morning will become increasingly likely.

There are plenty of fast and easy drop off locations on campus within a short and safe walk to Centre Street:

- Millet-Norris Parking Lot
- Academy Road
- In front of Robert Saltonstall
- Beside Kellner
- Upper facilities lot

I encourage you to help make travel along Centre Street as safe as possible for everyone.

Thank you,
Jay
