

MILTON ACADEMY Project ID

Project ID is a campus-wide registry of students' valuables designed to discourage theft and help protect community members' belongings.

BENEFITS

- In case of theft, the valuable's serial number can be entered into the National Crime Information Center (NCIC), which can trace a product if sold or found
- If the product is flagged in NCIC, the chances that the thief will be brought to justice increases
- Campus Safety offers this service for **FREE**

HOW TO PARTICIPATE

At the beginning of semester, Campus Safety arranges a time to come to each dorm to engrave valuables. However, if you have another object you'd like to engrave in the meantime, contact Campus Safety (ext. 2911) to set up an appointment.
