## **Monitoring updates on coronavirus**

World health officials are tracking the outbreak of respiratory illness caused by a coronavirus first detected in Wuhan, Hubei Province, China. While we currently have no indication that the Greater Boston area, including our campus, is affected, we continue to follow this rapidly evolving situation. We are closely monitoring reports and recommendations from the Centers for Disease Control (CDC), the World Health Organization (WHO), and the Massachusetts Department of Public Health to ensure any necessary planning, procedures, and decision-making reflect the most up-to-date expert recommendations. The School is also monitoring any travel to or from China and is reviewing the status of any planned trips.

Information about the coronavirus is available on the [CDC](#) and [WHO](#) websites. The CDC website also provides a list of important everyday [actions to help prevent](#) the spread of respiratory viruses, including the flu.
